

August 31 Special Board of Education Meeting

NOTE duration:"00:49:36.8340000"

NOTE language:en-us

NOTE Confidence: 0.79794353

00:01:20.650 --> 00:01:24.730

Chenango Forks. Special
Board of Education meeting.

Could The clerk please

Do roll call?

NOTE Confidence: 0.7521

00:01:38.970 --> 00:01:39.950

Amy O'Brien-here

Spyros Dimatos- here

Mary Collins-here

Mike Vavra-here

Lynn Lockwood-here

00:01:51.610 --> 00:01:54.040

We have a quorum. I call
the meeting to order.

NOTE Confidence: 0.85089505

00:01:56.900 --> 00:02:00.620

I, Erin McMullen Board clerk,
have confirmed with counsel that
this meeting is being held in
compliance with executive order
202.1 issued by Governor Andrew
M Cuomo on March 12, 2020.

Executive order suspends article
seven of the public officers law
to the extent necessary to
permit any public body to
take any action authorized by
law without permitting in public
in person, access to meetings.

In authorizing such meetings to
be held remotely by conference
call or similar service.

This meeting is being held
remotely via zoom virtual
meeting software. The public has
the ability to view or listen to
this meeting live via the zoom
app, web browser and or by
telephone. This meeting is being
recorded and will be transcribed
at a later date.

NOTE Confidence: 0.81362134

00:02:44.130 --> 00:02:45.260

Please stand for the pledge.

I pledge allegiance to the flag
and to the Republic for which it
stands, one nation under God,
indivisible, with Liberty and
justice for all.

NOTE Confidence: 0.8337992

00:03:01.090 --> 00:03:03.160

2.1 superintendents report.

NOTE Confidence: 0.8834924

00:03:05.000 --> 00:03:07.380

There's just two quick things
on it. Well, there's one
quick thing. One thing we
need to discuss, obviously.
Originally, when we made a
decision about two 2 1/2 weeks
ago. We decided that we were not
require students to wear mask
weather receded as long as they
were 6 foot apart.

The admin team spoke about that
today and with the CDC and DoH
guidelines and I've talked to

quite a few people to deal H.
They strongly recommend that the
students do word mask at all
times with a lot of masks breaks.
So we decided today as an admin
team that we're going to change
that and students will be
required to wear mask during
school day and they will be
given masks breaks, so that's an
FYI to the board and into any
public on. I said from day one
that our plan was fluid and it
would change as we have more
information and the more we
looked into it, and the more we
talk to the DoH. Myself
personally and I met with DoH
personnel. They really do
recommend the mask being on. So
for the sake of all involved,
we're going to have our students
wear the mask and we will have
masks breaks given it.

00:04:11.570 --> 00:04:14.265

So what's a masks break like?

What's involved with that?

NOTE Confidence: 0.84993446

00:04:14.265 --> 00:04:16.960

I am working on that right now.
Lynn, because we made the
decision this morning of doing
the mask. So one of the things
I walked away from that
meeting weather was my task to
come up with a masks breaks. We
will come up with that and
they will put it. Will be on
the web page.

NOTE Confidence: 0.84993446

00:04:25.780 --> 00:04:28.720

OK, thanks.

NOTE Confidence: 0.8565375

00:04:31.860 --> 00:04:36.048

The second part of our meeting
tonight is discussed at 20% cut
and stayed by Governor Cuomo.
And Mr. Putrino has a power
point, he's going to go over.
I'm not looking for the board to
make any decisions about

anything tonight as we have a couple of weeks to do so we can re discuss in September, but I was very imperative that discount on the boards radar on the public's radar now and out later because next month if we're in the same situation, the boards going to patients very tough decision. So I'm not asking the board tonight to make any decisions on anything. I mean, I plan on starting next. 2 weeks from today. Remote students athletics right now, or slate to go ahead as, as you know, the governors to letting us in New York State, Ed. Having said that, they were being looked at as we speak. So athletics is up in the air right now. I mean yes, they're scheduled to go on, but that could change any moment. And again with the 20% state reduction, the board has to be aware of it and the public has to be aware of it. And that is the main just this meeting. So

I'm not asking for any votes tonight or any you know to change are going remote in two weeks from today. So this morning is the board clear with I think there are some misconceptions. I was going to ask you guys for canceling this stat another thing and that's that's not the point of this meeting. Tonight it's an informational meeting for the board.

NOTE Confidence: 0.8207749

00:05:52.159 --> 00:05:56.960

So you're currently playing to go in hybrid and I'm 14, not just remote, correct current plan. Yes, OK.

NOTE Confidence: 0.8207749

00:06:01.294 --> 00:06:05.628

Yep, and it's my full recommendation. We go with that current plan going forward and until we have more information what's going on. Sports wise and school wise. So again, strictly informational

meeting tonight of where we are
and what our future looks like.

If the 20% carries out and we do
not get federally. So

Erin, can you bring up the
PowerPoint, please?

Mr Putrino only lets you walk
through the PowerPoint.

NOTE Confidence: 0.8903561

00:06:36.260 --> 00:06:39.160

OK, next slide here.

OK then what we know now.

NOTE Confidence: 0.8839275

The 2019-2020 cost.

Aid and state grant
reimbursements. And the
cafeteria payments after July
1st had been already been
reduced 20%. So what? That
amounts to right now is.

We've had a deductive 8288
thousand, roughly \$88,000
currently.

Absent any federal aid, we anticipate New York State will also withhold. 2020 state aid payments through the state's second quarter, which is the end of September 30th by 20%.

What we don't know is that will these deductions be permanent deductions, or will they be remitted back to the district later on?

NOTE Confidence: 0.8190341

00:07:35.600 --> 00:07:39.752

Which I think is important to that they are given back the district later on is going to go from the feds to the state timetable. What that would look like?

NOTE Confidence: 0.7919917

00:07:48.440 --> 00:07:53.480

Correct, I mean if they're credible, government does come through then.

NOTE Confidence: 0.853495

00:07:56.530 --> 00:08:01.350

The timeline of that we don't know which would definitely impact our cash flow.

Next slide.

So what you can see here is a breakdown of the aids in blue and.

NOTE Confidence: 0.84553653

00:08:20.000 --> 00:08:24.512

What time frame we would look to see those deductions?

00:09:44.210 --> 00:09:49.982

So as you can see, in September we would get a reduction 7 hundred, \$17,000 in aid.

In December, another 400.

In March would be a big one of 1.5.

In June 1.1.

And the following September would be the rest for a total of. Four point \$1,000,000 now.

Chenango Forks should budget.

Most of the revenue for the budget comes from state aid. In fact, 60% of the revenue for Forks comes from state aid.

So to take a four point

\$1,000,000 hit.

That that affects

12% of the budget.

NOTE Confidence: 0.88236654

00:10:39.270 --> 00:10:44.130

What we have available

to use to offset that?

NOTE Confidence: 0.90033466

00:10:46.020 --> 00:10:48.414

Is the amount over 4% that we

carried over? Which is \$73,000

because. 200,000 of it was the

state aid shortage in

transportation that we knew was

going to happen. Since we didn't

pay birnie bus, the full amount

of transportation. So there was

going to be a shortage in state

aid for transportation.

There was also able to shortage
for the health insurance of
\$400,000, so that was going to
be covered by the amount that
was over 4%.

Plus we have \$400,000 in
the Teachers Retirement
Reserve, which we will use to
pay for teachers retirement this
year, which could be will be
used to offset that. So that
brings us to roughly \$500,000.
Which doesn't even get us
through the end of September.

NOTE Confidence: 0.8543571

00:11:46.840 --> 00:11:51.460

We could use some unassigned
fund balance. The 4% of our you

NOTE Confidence: 0.8543571

00:11:51.460 --> 00:11:55.695

know that we carry over every
year, which is a district

NOTE Confidence: 0.89489573

00:11:55.695 --> 00:11:59.460

savings account. To take us
through September.

NOTE Confidence: 0.93729454

00:12:00.670 --> 00:12:03.058

And then we start getting into.
The rest of the savings,
which is not really
recommended to be used
because if you use your
savings up.

Then next year budget comes
around again. You don't. You
don't know if you're going to
have stayed. Ah, you
don't have savings.

Then your between your you're
stuck because you got nothing,
nothing to fall back on.

And we've already seen, again,
we've already seen some of the
aids that have already been cut.

NOTE Confidence: 0.9022497

00:12:46.870 --> 00:12:53.877

So that's where we stand.

Currently it's it's not a pretty picture. In fact, probably.

You'll see that most districts that fall into the category where most of their revenue comes from state aid are going to be looking like this.

Because it's not really a fair reduction 20% across the board for all districts is not really fair because. But the The Needy Districts are the rural districts who don't have a lot of tax base where most of their revenue comes from stayed. It's a bigger impact to them than districts who don't have allies.

State aid. So that's that's.

Really not a fair across the board. Reduction really isn't really fair to all districts.

NOTE Confidence: 0.8394375

00:13:44.520 --> 00:13:47.724

Next slide.

does the board have any

questions on this slide?

I want to make sure all
five board members know
exactly where we are.

OK Alright. Erin next
slide. Thank you, mark.

NOTE Confidence: 0.89381915

00:14:13.650 --> 00:14:17.770

OK, so four point \$1,000,000
is the worst case scenario
will it will it happen? Will
it? Won't it happen? We don't

know that you have to be
prepared for the possibility.
We can cover, you know, maybe
700,000 so where we don't come
up with the the 3.4 million.

To cover the shortage.

These are some possible
scenarios of of where we can do
that by going full remote.

These are some of the areas that
would happen. That would bring
you going full remote. You could
have probably 3 point \$8,000,000
worth of savings. Again,

everything is up for
negotiation. This is nothing
that's written in stone.

If we went half your remote.

We can see the savings as being
1.8 million, but again, that
doesn't take you. That doesn't
take you to the worst case
scenario, so. It's a, It's a
gamble. It's a crapshoot.

These are just some items.

:15:33.030 --> 00:15:34.110

Next slide here.

So what do we do now?

If the cuts come back and this
is a cash flow issue, that can
be managed with our savings and
with ran, which are revenue
anticipation notes, would say
which are. Basically you go out
and borrow the money and you're
borrowing it with the knowledge
that you will happen the.

The money to pay it back, and
it's a short term borrowing, but
that's only available to the
district if we know that the
money is coming back and right

now we do not know that.

Reopen it has caused the district to incur costs that were not budgeted for and we require cuts in other areas to cover them so. Basically, what what is happened by the governor saying you can reopen, but there's all these protocols that have to be in place.

He's basically put every district.

The additional costs that were never budgeted for.

So on top of that.

The districts had to make cuts somewhere to pay for these items.

Then he turns around and they were going to give you to fund your your normal budget.

So here you're basically losing two ways you're losing on the money. You have to spend to put these protocols in case to open up and then.

He's taken away stayed.

The decisions should

probably may be made by the end
of September early October,
because that's the time when.
We should know better idea of.

NOTE Confidence: 0.88226795

00:17:28.600 --> 00:17:31.110

You know whether these things
might be permanent or not.
This will get because the state
is supposed to have there.
More concrete plans by the end
of September, so they said.

And that's probably around the
time when you know, we've pretty
pretty much used up our reserves
that we have legally have.

Are able to.

So I really wouldn't recommend
that we wait too much longer
than that to make a decision.

And that's pretty much it. If
you have any questions.

NOTE Confidence: 0.9253269

00:18:11.300 --> 00:18:13.358

So again, we don't need to make any decisions tonight. But the board has to understand what's going on right now. They have to understand that going forward, the next two or three weeks if things don't change, you're going to be faced with a very tough decisions.

NOTE Confidence: 0.8575063

00:18:27.220 --> 00:18:30.300

Mark, I have a question.

Wasn't there some funds that we were given to pay for kovid stuff from the state or federal or something?

NOTE Confidence: 0.74567515

00:18:36.090 --> 00:18:42.336

There are FEMA funds, but

FEMA funds are for.

The pretty much cleaning the building. They have not made a determination yet if FEMA is going to reimburse for opening the P PE, the other protocols

that you put in place to to open the schools. So that hasn't been determined yet. FEMA is going to reimburse, and even if they do reimburse. Famous turn around time. From what I've seen, what I've been involved with them has been one to two years.

NOTE Confidence: 0.8815631

00:19:19.520 --> 00:19:22.748

It's closer to two Mark. I think one would be would be very lucky.

NOTE Confidence: 0.85878134

00:19:27.620 --> 00:19:29.706

Wasn't there something called the cares act?

NOTE Confidence: 0.82650906

00:19:30.780 --> 00:19:35.630

The Cares Act was used when when the governor presented his budget and passed it, he

had a pandemic adjustment and
what the what. The offset of
that adjustment was the
Cares Act so initially?

There was foundation aid
that we got.

You know what it was passed was.

There was no increase in
foundation aid. It was going to
be the same as last year and
now. Here to accomplish that we
had to use Cares Act money. Governor
used Cares Act money to make
us just to get where we didn't

were last year.

NOTE Confidence: 0.8984415

00:20:10.870 --> 00:20:14.302

So we did receive some money,
but it only made up for the
deficit from last year.

Made up for the deficit for
the deficit that governor put
in for the pandemic.

NOTE Confidence: 0.8885997

00:20:25.730 --> 00:20:27.810

Do we have a figure and how much We received?

NOTE Confidence: 0.8901725

00:20:29.270 --> 00:20:30.728

It was 300,000.

NOTE Confidence: 0.749447

00:20:38.120 --> 00:20:41.060

OK, and I'm looking at your the.

I guess it's the 4th slide

where it shows the full year

versus 1/2 year savings.

Yeah, it has like

If we go remote, so currently. I

mean I haven't those already

been ordered for this year. Like

how is it?

NOTE Confidence: 0.8633057

00:21:00.160 --> 00:21:03.339

Uh, no. The high school ordered

the science textbooks. They made

a determination that they didn't

really need him this year. They

could go get by without it.

I want to stress.

I want to stress that.

You know whatever we do.

It's not going to be solved.

Just this year we're just

kicking the can down the road

here because this is going to be

multiple years, Lynn.

You know you're going to be

making a tough decision this

year, but. That decision is

not going to go away. You're

going to have to make it

again for the next year.

So like the textbooks,

that's a savings. We're

going to see no matter what.

NOTE Confidence: 0.92772424

00:21:51.960 --> 00:21:52.500

Right?

NOTE Confidence: 0.91384083

00:21:57.890 --> 00:21:59.786

And then I see like under.

Operations, there's tree

removal and then also under
transportation. There's tree
removal, water, water. How
are those different?

NOTE Confidence: 0.8439371

00:22:11.680 --> 00:22:16.009

Was done by the bus garage and
the other one is the school
buildings. OK.

NOTE Confidence: 0.8474623

00:22:26.180 --> 00:22:29.430

And then you can tell it in
spirit is right. Pull, pull up
on your iPad so you can make it
bigger so you can see these
numbers. Yeah, I got it up on my
screen.

Now we don't have any CFTA
teaching Teacher

Association staff in this.

Here that you're looking at.

NOTE Confidence: 0.7781294

00:22:57.850 --> 00:23:00.058

So what are you saying? No layoffs then?

NOTE Confidence: 0.8458467

00:23:01.600 --> 00:23:04.552

Trying to avoid land. I mean we can't cut our teachers back.

We were not overly _ flow in any of three buildings that it is. So again, this sheet was put together with no septier.

NOTE Confidence: 0.87323594

00:23:17.240 --> 00:23:17.690

OK.

NOTE Confidence: 0.8953646

00:23:27.040 --> 00:23:30.940

So you were going to have to make a decision end of September starts before that. Would it be more disruptive to make the decision then I? I mean, I understand timetables I'm I'm just thinking what is the least disruptive?

Time to make a decision.

Tonight is I really
like the kids to come back to
school. We mailed the letters.
We've got the hybrid plan right

NOTE Confidence: 0.7900452

00:23:53.420 --> 00:23:57.560

if we can bring him back
at least for a couple weeks and
see what's going on and buy a
little bit of time.

Said as far as that likes to
athletics is one of the first
things on the list. I can't
guarantee right now that the
athletics will happen.

NOTE Confidence: 0.8627054

00:24:09.220 --> 00:24:11.464

So that's not a decision. I
think our school board needs to
make. I think it's a decision
that state can make and then we
can look at that. And the same
with with going hybrid or mall.
I think if we wait.

Again, the two or three weeks,
or maybe a decision made for us
that we don't have to make. I
think it was only on a yesterday
sent all their kids home.

NOTE Confidence: 0.79916185

00:24:28.130 --> 00:24:30.610

Yeah, I know your daughter
goes to Brockport and and
they're having issues there
so.

NOTE Confidence: 0.8600388

00:24:33.310 --> 00:24:37.060

Do we do we try to make
these decisions now or do we
wait two or three weeks and
see some are actually made for
us? And again, I'm asking the
board I'm not telling the

NOTE Confidence: 0.8600388

00:24:42.810 --> 00:24:43.560

Bored om asking board.

NOTE Confidence: 0.91776186

00:24:46.650 --> 00:24:48.538

I would rather wait to
make a decision.

NOTE Confidence: 0.8517673

00:24:53.780 --> 00:24:58.100

I agree if we have to, I think
we don't go as as we have

NOTE Confidence: 0.8517673

00:24:58.100 --> 00:25:00.980

started at these kids. Come
back, little sense of normalcy

NOTE Confidence: 0.8517673

00:25:00.980 --> 00:25:04.148

for them. Then come October we
can revisit this whole thing.

NOTE Confidence: 0.8517673

00:25:04.148 --> 00:25:07.316

And again, we've seen this whole
through this whole situation as

NOTE Confidence: 0.8517673

00:25:07.316 --> 00:25:09.908

things so fluid things can
change in a month.

NOTE Confidence: 0.86856204

00:25:11.580 --> 00:25:14.280

Yeah, and Mike. I'm not a
word in any schools. Who in

NOTE Confidence: 0.86856204

00:25:14.280 --> 00:25:16.755

our area? Who said they were
going to go full remote?

NOTE Confidence: 0.8058043

00:25:17.970 --> 00:25:21.102

I must have pushed it out to
October, but I don't think

NOTE Confidence: 0.8058043

00:25:21.102 --> 00:25:24.234

there's there's one Ann and the

name escapes me and they are

NOTE Confidence: 0.8058043

00:25:24.234 --> 00:25:25.278

going full remote, but.

NOTE Confidence: 0.7501419

00:25:25.870 --> 00:25:29.566

Now just just Bingham 10

doll I know. Yeah right but

NOTE Confidence: 0.7501419

00:25:29.566 --> 00:25:30.910

there there starting late.

NOTE Confidence: 0.8492176

00:25:32.240 --> 00:25:35.900

Said that, they don't have

the funds to open that was in

NOTE Confidence: 0.8492176

00:25:35.900 --> 00:25:38.645

the evening, OK, Thursday or

Friday unless it's changed.

NOTE Confidence: 0.7441006

00:25:40.040 --> 00:25:42.000

Have a Bennington just pushed
their start date, start date

NOTE Confidence: 0.7441006

00:25:42.000 --> 00:25:43.960

back? Might they didn't say
they're going full remote for

NOTE Confidence: 0.9153961

00:25:43.960 --> 00:25:47.010

the year. Right, yeah,
that's my bad.

NOTE Confidence: 0.7596438

00:25:48.410 --> 00:25:52.678

How their urge all the people
listening in to contact their

NOTE Confidence: 0.7596438

00:25:52.678 --> 00:25:54.618

state legislatures an let them

NOTE Confidence: 0.93829685

00:25:54.618 --> 00:25:57.360

know that? This is not
acceptable.

NOTE Confidence: 0.84455323

00:25:58.700 --> 00:25:59.670

These reductions

NOTE Confidence: 0.917787

00:26:01.250 --> 00:26:05.558

I mean, you're not. You're not
alone in this. I mean every

NOTE Confidence: 0.917787

00:26:05.558 --> 00:26:09.507

district right now after the
news last week from the state,

NOTE Confidence: 0.917787

00:26:09.507 --> 00:26:13.097

every district is looking at
this whole situation right now

NOTE Confidence: 0.917787

00:26:13.097 --> 00:26:14.174

and re evaluating.

NOTE Confidence: 0.8040509

00:26:19.740 --> 00:26:22.540

Every district Narino me. I
think they're having a board

NOTE Confidence: 0.8040509

00:26:22.540 --> 00:26:25.060

meeting tonight to discuss
exactly the same thing we're

NOTE Confidence: 0.91815567

00:26:25.060 --> 00:26:28.747

discussing. Yeah there are in
the same situation.

NOTE Confidence: 0.8491282

00:26:32.000 --> 00:26:35.201

But this was good to have
tonight, like I think there's

NOTE Confidence: 0.8491282

00:26:35.201 --> 00:26:38.111

a lot of people who really
don't fully comprehend the

NOTE Confidence: 0.8491282

00:26:38.111 --> 00:26:41.312

20% reduction was doing, and
this was good to have some

NOTE Confidence: 0.8491282

00:26:41.312 --> 00:26:44.513

people realize now what they
can see. We're up against the

NOTE Confidence: 0.8491282

00:26:44.513 --> 00:26:45.386

wall right here.

NOTE Confidence: 0.88897794

00:26:46.420 --> 00:26:50.242

Yeah, and again like this is
nothing to school did or I did

NOTE Confidence: 0.88897794

00:26:50.242 --> 00:26:54.652

or the board did or? I mean we
had a budget. We had a balanced

NOTE Confidence: 0.88897794

00:26:54.652 --> 00:26:57.886

budget. We went out, we did
everything right but when you

NOTE Confidence: 0.88897794

00:26:57.886 --> 00:27:02.002

pull back 20% and Mark said it
60% of our budget is state aid.

NOTE Confidence: 0.8664076

00:27:03.760 --> 00:27:05.698

Four point, \$1,000,000
off our table.

NOTE Confidence: 0.863809

00:27:08.850 --> 00:27:09.630

No answers.

NOTE Confidence: 0.85160416

00:27:13.920 --> 00:27:17.506

Like Lynn said, we get people
have got to start contacting

NOTE Confidence: 0.85160416

00:27:17.506 --> 00:27:19.136

people as much as possible.

NOTE Confidence: 0.85885024

00:27:21.450 --> 00:27:25.883

And it's at it. And it's not
just schools because counties

NOTE Confidence: 0.85885024

00:27:25.883 --> 00:27:30.316

and towns are have gone are
going through the same thing

NOTE Confidence: 0.85885024

00:27:30.316 --> 00:27:31.928

because everybody lost 20%.

NOTE Confidence: 0.91068226

00:27:36.400 --> 00:27:39.660

I'm in favor of moving
forward as we have our

NOTE Confidence: 0.91068226

00:27:39.660 --> 00:27:43.246

current plan in place and we
don't make a decision until

NOTE Confidence: 0.91068226

00:27:43.246 --> 00:27:44.550

we absolutely have to.

NOTE Confidence: 0.8391357

00:27:46.940 --> 00:27:50.021

Yeah Amy, I think that's the
best the best way to go forward.

NOTE Confidence: 0.8391357

00:27:50.021 --> 00:27:52.865

I mean I can tell you the
teachers were ready, the admin

NOTE Confidence: 0.86539274

00:27:52.865 --> 00:27:56.725

teams ready. The students are ready to start two weeks from

NOTE Confidence: 0.86539274

00:27:56.725 --> 00:27:59.970

today with our hybrid model, and I think if we interrupted

NOTE Confidence: 0.86539274

00:27:59.970 --> 00:28:02.035

that tonight would be asking for problems.

NOTE Confidence: 0.86942255

00:28:07.130 --> 00:28:12.072

So can we stay firmly that there will be no teacher cuts or not?

NOTE Confidence: 0.86942255

00:28:12.072 --> 00:28:15.955

Absolutely not. I marry that it's going to be a board

NOTE Confidence: 0.86942255

00:28:15.955 --> 00:28:17.720

decision going forward, but at

NOTE Confidence: 0.8721795

00:28:17.720 --> 00:28:23.581

4.1 million. Right here we have
3.8 and that's teaching remotely

NOTE Confidence: 0.81696993

00:28:23.581 --> 00:28:27.236

that's. Sports that's
transportation, transportation,

NOTE Confidence: 0.81696993

00:28:27.236 --> 00:28:30.860

and remote. It is almost 3

NOTE Confidence: 0.9167941

00:28:30.860 --> 00:28:34.657

million. So going forward, I
can't guarantee anything. I can

NOTE Confidence: 0.9167941

00:28:34.657 --> 00:28:37.933

just tell you right now we don't
have any on the table.

NOTE Confidence: 0.8349545

00:28:38.860 --> 00:28:43.456

When I my thoughts a little bit
different. My thinking was that

NOTE Confidence: 0.8349545

00:28:43.456 --> 00:28:45.371

if we visit what we.

NOTE Confidence: 0.8508143

00:28:46.530 --> 00:28:50.982

Can pot and make that decision.
The staff would rest more assure

NOTE Confidence: 0.8508143

00:28:50.982 --> 00:28:55.805

that they're not at the bottom
of the list at the moment. They

NOTE Confidence: 0.8508143

00:28:55.805 --> 00:28:59.515

went through this all summer,
not knowing whether they were

NOTE Confidence: 0.8508143

00:28:59.515 --> 00:29:04.338

going to be employee. Prior to
that, I should say spring. So my

NOTE Confidence: 0.8508143

00:29:04.338 --> 00:29:09.161

thinking is if we dig in and
look at some things that will

NOTE Confidence: 0.8508143

00:29:09.161 --> 00:29:11.016

impact the fewest people, the

NOTE Confidence: 0.9164022

00:29:11.016 --> 00:29:13.280

fewer students. That perhaps

NOTE Confidence: 0.9108979

00:29:13.280 --> 00:29:18.467

that will. Help us go in
the direction of.

NOTE Confidence: 0.8818082

00:29:19.030 --> 00:29:21.989

Not having to open up again
and have people worrying about

NOTE Confidence: 0.8818082

00:29:21.989 --> 00:29:24.679

what's going to happen will
know 'cause it doesn't matter

NOTE Confidence: 0.8818082

00:29:24.679 --> 00:29:28.176

how much money we get. We
still if we don't get the full

NOTE Confidence: 0.8818082

00:29:28.176 --> 00:29:31.135

amount, we're going to have to
cut something. So what will

NOTE Confidence: 0.8818082

00:29:31.135 --> 00:29:32.211

that? First something be?

NOTE Confidence: 0.86088574

00:29:38.560 --> 00:29:40.728

Are you asking me or
asking the board?

NOTE Confidence: 0.8413132

00:29:42.300 --> 00:29:43.290

Has an answer.

NOTE Confidence: 0.87051594

00:29:48.320 --> 00:29:52.207

Again, I mean Mark and I put
this together. I mean, you can

NOTE Confidence: 0.87051594

00:29:52.207 --> 00:29:56.094

see what's on here. We don't
have any staff on here and we're

NOTE Confidence: 0.87051594

00:29:56.094 --> 00:29:57.589

good with that, but again.

NOTE Confidence: 0.8744351

00:29:59.230 --> 00:30:01.592

If you look at it. My iPad back

NOTE Confidence: 0.8453302

00:30:01.592 --> 00:30:07.730

up quick. The biggest savings
are if you go remote an that's

NOTE Confidence: 0.8453302

00:30:07.730 --> 00:30:10.190

going to be almost \$3,000,000.

NOTE Confidence: 0.9061086

00:30:11.020 --> 00:30:14.848

The rest of the things on this
list are all relatively small.

NOTE Confidence: 0.9061086

00:30:14.848 --> 00:30:18.038

Besides that, the only other big ticket item is sports.

NOTE Confidence: 0.8881561

00:30:23.020 --> 00:30:27.206

So I I don't know how to answer your question. I mean we can

NOTE Confidence: 0.8881561

00:30:27.206 --> 00:30:28.701

start chopping small stuff off

NOTE Confidence: 0.8401204

00:30:28.701 --> 00:30:34.340

here. But it's it's not going to make a big enough then in one.

NOTE Confidence: 0.83223516

00:30:35.210 --> 00:30:39.695

Now Joe Lemaster or mark, let me ask this question. Is it going

NOTE Confidence: 0.83223516

00:30:39.695 --> 00:30:45.215

to be or do we not know in all
or none is either going to be

NOTE Confidence: 0.83223516

00:30:45.215 --> 00:30:49.355

20% is withheld or nothing
withheld or could it be 10%? Are

NOTE Confidence: 0.83223516

00:30:49.355 --> 00:30:50.735

those possibilities out there?

NOTE Confidence: 0.8589521

00:30:52.280 --> 00:30:57.155

20% Amy and it's it's definitely
20%. The only thing that we have

NOTE Confidence: 0.8589521

00:30:57.155 --> 00:31:01.655

going for us if the federal
government steps in and it helps

NOTE Confidence: 0.8589521

00:31:01.655 --> 00:31:05.780

us with that. I'm asking it
backwards. I guess I understand

NOTE Confidence: 0.8589521

00:31:05.780 --> 00:31:06.905
this 20% but.

NOTE Confidence: 0.8343544

00:31:08.000 --> 00:31:12.060
Is there a chance that will get
10% of that back or X amount

NOTE Confidence: 0.8343544

00:31:12.060 --> 00:31:16.120
percent or we just need to plan
an focus on the 20% being gone?

NOTE Confidence: 0.8343544

00:31:16.120 --> 00:31:19.310
Focus on the 20% being unless
the federal government comes in

NOTE Confidence: 0.8343544

00:31:19.310 --> 00:31:21.050

to help us. Unless you disagree,

NOTE Confidence: 0.93598384

00:31:21.050 --> 00:31:24.550

mark. No, because nobody
knows right now.

NOTE Confidence: 0.88773555

00:31:26.140 --> 00:31:30.352

20% is the number that they
threw out in March. 20% is the

NOTE Confidence: 0.88773555

00:31:30.352 --> 00:31:34.564

number they threw out in June.
20% is the number they have been

NOTE Confidence: 0.88773555

00:31:34.564 --> 00:31:38.776

thrown out all the time and then
20% was the number that they

NOTE Confidence: 0.88773555

00:31:38.776 --> 00:31:40.720

took the first go around so.

NOTE Confidence: 0.88976145

00:31:42.910 --> 00:31:46.846

It's out there and they took
it already and we have to

NOTE Confidence: 0.88976145

00:31:46.846 --> 00:31:49.470

assume that they're going to
continue to take.

NOTE Confidence: 0.91959774

00:31:50.710 --> 00:31:54.779

That's the reason I felt we
should move ahead and an look at

NOTE Confidence: 0.91959774

00:31:54.779 --> 00:31:56.344

things to see what the

NOTE Confidence: 0.85499793

00:31:56.344 --> 00:31:59.950

possibilities are. Because if

this is thrown out just like

NOTE Confidence: 0.85499793

00:31:59.950 --> 00:32:03.250

everything else just happens, we
get a letter and that's or

NOTE Confidence: 0.85499793

00:32:03.250 --> 00:32:06.850

whatever it's told to us right
away or demanded of us right

NOTE Confidence: 0.85499793

00:32:06.850 --> 00:32:09.550

away. We're going to be
scrambling at that point.

NOTE Confidence: 0.8408923

00:32:15.680 --> 00:32:19.200

Is they? Have they given any
reasoning why it's 20% across

NOTE Confidence: 0.8408923

00:32:19.200 --> 00:32:22.400

the board? The way they've not
taken into consideration schools

NOTE Confidence: 0.8408923

00:32:22.400 --> 00:32:25.920

that rely more heavily on aid to
get a smaller deduction?

NOTE Confidence: 0.8670381

00:32:27.290 --> 00:32:30.960

They're just looking at their
deficit, which is, you know,

NOTE Confidence: 0.8670381

00:32:30.960 --> 00:32:34.263

billions of dollars, and
they're trying to figure out

NOTE Confidence: 0.8670381

00:32:34.263 --> 00:32:38.300

how they can make up that
deficit. So they just took

NOTE Confidence: 0.8670381

00:32:38.300 --> 00:32:42.337

their whatever that they shell
out to the localities and then

NOTE Confidence: 0.8670381

00:32:42.337 --> 00:32:46.007

figured out 20% would be
enough to cover their death.

NOTE Confidence: 0.89686364

00:32:48.110 --> 00:32:51.945

I mean, I know you guys don't
have to answer this, but I

NOTE Confidence: 0.89686364

00:32:51.945 --> 00:32:55.485

really don't understand why they
think we can operate with a 4.1

NOTE Confidence: 0.89686364

00:32:55.485 --> 00:32:56.665

million deficit like there.

NOTE Confidence: 0.7552611

00:33:00.670 --> 00:33:03.680

Lynn, it's all political

ploy. We all know that this

NOTE Confidence: 0.7552611

00:33:03.680 --> 00:33:06.088

is Cuomo trying to strong

arm the government.

NOTE Confidence: 0.7547184

00:33:08.140 --> 00:33:11.748

Lynn, to be entirely honest,

we can't operate at 4 point.

NOTE Confidence: 0.7547184

00:33:11.748 --> 00:33:15.028

\$1,000,000 deficit is like

Mark said. Even if we make

NOTE Confidence: 0.7547184

00:33:15.028 --> 00:33:16.340

these cuts this year.

NOTE Confidence: 0.8518972

00:33:17.520 --> 00:33:18.546

Where are you going next year?

NOTE Confidence: 0.9290086

00:33:19.950 --> 00:33:20.380

Yeah.

NOTE Confidence: 0.8480056

00:33:22.280 --> 00:33:26.186

I mean, this is not
acceptable. We can't operate

NOTE Confidence: 0.8480056

00:33:26.186 --> 00:33:27.922

a school with percent.

NOTE Confidence: 0.9037981

00:33:29.240 --> 00:33:30.570

And I'm not trying to be
dramatic.

NOTE Confidence: 0.8447957

00:33:37.770 --> 00:33:40.452

So end of September October gets

NOTE Confidence: 0.9092043

00:33:40.452 --> 00:33:45.194

here and. We're not getting it
back then. Basically, we're

NOTE Confidence: 0.9092043

00:33:45.194 --> 00:33:46.706

going to have to.

NOTE Confidence: 0.8283173

00:33:48.550 --> 00:33:51.034

Decide whether or not
we're going to take this

NOTE Confidence: 0.8283173

00:33:51.034 --> 00:33:53.794

list here and chop that
all off. Is that right?

NOTE Confidence: 0.7874543

00:33:55.130 --> 00:34:00.161

Yeah, yeah and the biggest thing
on the list, Amy it's going to

NOTE Confidence: 0.9322817

00:34:00.161 --> 00:34:03.640

remote, yeah. It's it's
about 2.5 million.

NOTE Confidence: 0.8454829

00:34:06.020 --> 00:34:09.868

Just I'm just looking into two
line two line items are just 2.5

NOTE Confidence: 0.787278

00:34:09.868 --> 00:34:12.000

add together. By going remote.

NOTE Confidence: 0.8096589

00:34:12.880 --> 00:34:14.826

In my in my knowledge, the idea.

NOTE Confidence: 0.898766

00:34:15.700 --> 00:34:19.902

It's a horrible idea, but I
don't think there are numbers.

NOTE Confidence: 0.79977834

00:34:20.550 --> 00:34:22.258

Without going into staff.

NOTE Confidence: 0.8492001

00:34:23.590 --> 00:34:25.855

Staff makes up \$17,000,000 over

NOTE Confidence: 0.88240546

00:34:25.855 --> 00:34:29.280

budget. Without going into

that 17,000,000, this is

NOTE Confidence: 0.88240546

00:34:29.280 --> 00:34:30.440

what you're looking at.

NOTE Confidence: 0.878758

00:34:31.760 --> 00:34:33.895

So if if we go back an.

NOTE Confidence: 0.8249297

00:34:34.590 --> 00:34:38.814

Cold it becomes like a non issue
like for whatever. Just pretend

NOTE Confidence: 0.8249297

00:34:38.814 --> 00:34:43.038

we don't have an outbreak or
whatever. How can we go remote

NOTE Confidence: 0.8249297

00:34:43.038 --> 00:34:45.150

if Cove is not going on?

NOTE Confidence: 0.82440645

00:34:46.300 --> 00:34:50.057

Like, is that something we can
do? Even do if we don't have

NOTE Confidence: 0.82440645

00:34:50.057 --> 00:34:53.525

koben causing us to be remote? I
believe you kinlin. I don't

NOTE Confidence: 0.82440645

00:34:53.525 --> 00:34:57.282

personally think code is going
to go away in the next two or

NOTE Confidence: 0.82440645

00:34:57.282 --> 00:34:59.305
three months. I would love it if

NOTE Confidence: 0.9386884

00:34:59.305 --> 00:35:00.990
it did. But

NOTE Confidence: 0.9074566

00:35:01.580 --> 00:35:03.350
if we can operate a district.

NOTE Confidence: 0.87792563

00:35:05.290 --> 00:35:07.579
Again, what what choices
do you have?

NOTE Confidence: 0.9269998

00:35:10.350 --> 00:35:12.310
I mean 4.1 million.

NOTE Confidence: 0.8546192

00:35:13.770 --> 00:35:17.500

But that's again, that's
insurmountable.

NOTE Confidence: 0.8974737

00:35:20.170 --> 00:35:21.670

I just wanted to throw another

NOTE Confidence: 0.88395303

00:35:21.670 --> 00:35:25.500

thing out there that. I
don't know any of you.

NOTE Confidence: 0.88395303

00:35:25.500 --> 00:35:26.820

Remember the GE D?

NOTE Confidence: 0.66666853

00:35:28.590 --> 00:35:30.828

OK, so GN.

NOTE Confidence: 0.73159117

00:35:32.510 --> 00:35:35.198

Elimination adjustment Yeah GA.

NOTE Confidence: 0.82415056

00:35:35.960 --> 00:35:39.696

The government district never
got that money back.

NOTE Confidence: 0.8141406

00:35:41.890 --> 00:35:44.962

So sometimes so when you think
about will you get this money

NOTE Confidence: 0.8141406

00:35:44.962 --> 00:35:48.034

back or once you get this money
back, just think think about

NOTE Confidence: 0.8141406

00:35:48.034 --> 00:35:50.082

that in the back of your mind is

NOTE Confidence: 0.8493535

00:35:50.082 --> 00:35:54.249

that. When he came out with the
with that on, the districts

NOTE Confidence: 0.8493535

00:35:54.249 --> 00:35:55.644
never got that money back.

NOTE Confidence: 0.8284718

00:36:27.450 --> 00:36:30.498
To go back to answer members
questions, some of the things on

NOTE Confidence: 0.8284718

00:36:30.498 --> 00:36:33.038
this list are not going to be
bought. Regardless the

NOTE Confidence: 0.78795457

00:36:33.038 --> 00:36:35.864
textbooks, the. The trees
blacktop repair the cracks

NOTE Confidence: 0.78795457

00:36:35.864 --> 00:36:39.212

ceiling. All that stuff is going
to come off after budget. We're

NOTE Confidence: 0.78795457

00:36:39.212 --> 00:36:40.886

not doing any of that stuff.

NOTE Confidence: 0.8883188

00:36:41.560 --> 00:36:44.316

So we are going to start to
chip on this list, but it's

NOTE Confidence: 0.8883188

00:36:44.316 --> 00:36:46.860

the bigger things on the list
that the board's got to make

NOTE Confidence: 0.8883188

00:36:46.860 --> 00:36:47.496

the decisions about.

NOTE Confidence: 0.86845064

00:36:48.850 --> 00:36:51.379

So we are dipping into

this list right now.

NOTE Confidence: 0.7259639

00:36:52.520 --> 00:36:55.720

Middle school chairs. I'm just
doing a few things. Textbook

NOTE Confidence: 0.82475805

00:36:55.720 --> 00:36:58.196

scantron sila phone. Now playing

NOTE Confidence: 0.8863067

00:36:58.196 --> 00:37:02.455

box. But the bigger things that
like the club salary is 53,000.

NOTE Confidence: 0.8132048

00:37:03.230 --> 00:37:06.194

It is. It's things like that we
gotta look at. You know the

NOTE Confidence: 0.8132048

00:37:06.194 --> 00:37:08.246

truck, the floor machine, the

blacktop to treatment with

NOTE Confidence: 0.8132048

00:37:08.246 --> 00:37:10.754

cracks, ceiling that that can
all come off right now. But

NOTE Confidence: 0.8132048

00:37:10.754 --> 00:37:13.490

Mark and I'll take that and
it'll come out of the budget.

NOTE Confidence: 0.8132048

00:37:13.490 --> 00:37:15.998

But again it's not going to
come anywhere near 4.1 million.

NOTE Confidence: 0.90156555

00:37:20.850 --> 00:37:23.974

Will we be able to follow the
protocols and have clubs?

NOTE Confidence: 0.87331235

00:37:24.750 --> 00:37:28.072

Or have clubs and follow the protocols at the same time?

NOTE Confidence: 0.81387997

00:37:29.120 --> 00:37:33.032

Right now Mary we and again you know I'm talking to the

NOTE Confidence: 0.81387997

00:37:33.032 --> 00:37:37.270

CF today, but right now we do not have clubs in the board

NOTE Confidence: 0.81387997

00:37:37.270 --> 00:37:39.878

is not appoint any advisors to the clubs.

NOTE Confidence: 0.7673137

00:37:46.020 --> 00:37:50.304

Joe, one thing I don't see on here is sub pay. If we go

NOTE Confidence: 0.9408171

00:37:50.304 --> 00:37:51.790

remote. Are we?

NOTE Confidence: 0.8684828

00:37:53.260 --> 00:37:56.590

Are we going to have some things

like how is that work? Like if a

NOTE Confidence: 0.8684828

00:37:56.590 --> 00:37:59.698

teacher is sick and they can't

do their role, do we have a sub

NOTE Confidence: 0.8684828

00:37:59.698 --> 00:38:02.362

come fill in or should that be

something that's on this list?

NOTE Confidence: 0.8684828

00:38:02.362 --> 00:38:05.026

No, no 'cause you would have to

have someone fill in because

NOTE Confidence: 0.8684828

00:38:05.026 --> 00:38:08.134

let's say Mike was my teacher
and he was out for five days. He

NOTE Confidence: 0.8684828

00:38:08.134 --> 00:38:09.466

just can't go missing for five

NOTE Confidence: 0.86765987

00:38:09.466 --> 00:38:11.150

days. Someone's going to have to

NOTE Confidence: 0.90090793

00:38:11.150 --> 00:38:13.270

fill in for him. Right?

NOTE Confidence: 0.7985642

00:38:34.570 --> 00:38:36.874

Again, I don't have an answer

NOTE Confidence: 0.7575662

00:38:36.874 --> 00:38:40.260

to. And I'm not sure there's a
Superintendent stay in New York.

NOTE Confidence: 0.8144381

00:38:40.260 --> 00:38:43.826

That's an answer to this. Is
something our governor threw at

NOTE Confidence: 0.8418313

00:38:43.826 --> 00:38:47.124

us. I'm furious about it. I
think the parents, the

NOTE Confidence: 0.8418313

00:38:47.124 --> 00:38:49.784

community, that teachers that
the admin team refers about it.

NOTE Confidence: 0.91398925

00:38:50.600 --> 00:38:51.670

I'm sure the board is.

NOTE Confidence: 0.84019846

00:38:53.860 --> 00:38:55.480

What is the hand we're
dealt and we're going to

NOTE Confidence: 0.84019846

00:38:55.480 --> 00:38:56.290

have to deal with it?

NOTE Confidence: 0.8917608

00:38:58.460 --> 00:39:01.116

Which is why everyone should
contact their legislatures.

NOTE Confidence: 0.8548767

00:39:03.020 --> 00:39:06.408

Email call whatever anybody
wants email address is or how to

NOTE Confidence: 0.8548767

00:39:06.408 --> 00:39:08.256

contact them. Send me an email.

NOTE Confidence: 0.8636792

00:39:11.380 --> 00:39:13.525

I believe we have all the
information on the website. I

NOTE Confidence: 0.8636792

00:39:13.525 --> 00:39:15.865

can double check Lynn, but if
not I can. I can definitely

NOTE Confidence: 0.8636792

00:39:15.865 --> 00:39:17.815

get are out there on the
front of the website.

NOTE Confidence: 0.8765806

00:39:18.930 --> 00:39:19.670

Thanks Joe.

NOTE Confidence: 0.7921908

00:39:20.990 --> 00:39:24.916

Joe are aids where we keep the
age we have. I'm sure that

NOTE Confidence: 0.84702253

00:39:24.916 --> 00:39:29.010

there. Very badly needed
if you go remote learning

NOTE Confidence: 0.84702253

00:39:29.010 --> 00:39:32.475

then the aids would not.

They would be furloughed.

NOTE Confidence: 0.8629829

00:39:35.800 --> 00:39:38.913

All of them because I know

someone like the middle school

NOTE Confidence: 0.8629829

00:39:38.913 --> 00:39:40.328

high school aides were helping

NOTE Confidence: 0.89389896

00:39:40.328 --> 00:39:44.406

students. But during you know

the spring, so would it be all

NOTE Confidence: 0.89389896

00:39:44.406 --> 00:39:47.838

of them across the board? That

would be my suggestion. If you

NOTE Confidence: 0.89389896

00:39:47.838 --> 00:39:50.698

look at the first line, that
would be one point.

NOTE Confidence: 0.8938309

00:39:51.670 --> 00:39:53.470

\$2,000,000 savings?

NOTE Confidence: 0.8300244

00:39:57.260 --> 00:40:00.248

And the other savings by going
to remote it does huge is.

NOTE Confidence: 0.85299224

00:40:00.320 --> 00:40:02.168

Transportation at 1.5.

NOTE Confidence: 0.88773876

00:40:03.010 --> 00:40:04.498

And I kept saying.

NOTE Confidence: 0.8834566

00:40:05.050 --> 00:40:09.130

They keep saying 2.6 two point 7
that that's your 2.7 million.

NOTE Confidence: 0.92814344

00:40:11.430 --> 00:40:16.074

And remember another thing
that if you don't have

NOTE Confidence: 0.92814344

00:40:16.074 --> 00:40:16.590

transportation.

NOTE Confidence: 0.8246717

00:40:17.650 --> 00:40:20.177

You don't have that
transportation contract expense

NOTE Confidence: 0.8246717

00:40:20.177 --> 00:40:23.065

that's transport that's less
transportation aid next year

NOTE Confidence: 0.8246717

00:40:23.065 --> 00:40:24.870

that you're going to get.

NOTE Confidence: 0.9036739

00:40:25.610 --> 00:40:27.860

Which is going to be less
revenue next year.

NOTE Confidence: 0.9081343

00:40:33.510 --> 00:40:35.518

Is there like a formula
for that like?

NOTE Confidence: 0.83112586

00:40:36.600 --> 00:40:43.800

Mark, usually it's like 80. You
get 80% back or seventy 7080%

NOTE Confidence: 0.83112586

00:40:43.800 --> 00:40:47.400

back and aid the following year

NOTE Confidence: 0.9264305

00:40:47.400 --> 00:40:51.962

OK. But there is a. It's a
formula and it's kind of

NOTE Confidence: 0.9264305

00:40:51.962 --> 00:40:52.506
complicated, but.

NOTE Confidence: 0.90249634

00:40:55.340 --> 00:40:58.076
Transportation aid is a
big piece of revenue for

NOTE Confidence: 0.90249634

00:40:58.076 --> 00:40:58.684
the district.

NOTE Confidence: 0.88970184

00:41:04.370 --> 00:41:07.505
But if you have the savings
one year next year, you'll

NOTE Confidence: 0.88970184

00:41:07.505 --> 00:41:08.930
lose out on the revenue.

NOTE Confidence: 0.9452102

00:41:15.480 --> 00:41:16.788

That's why I say.

NOTE Confidence: 0.87945557

00:41:17.400 --> 00:41:21.079

You know this problem is not
going to go away in one year.

NOTE Confidence: 0.87945557

00:41:21.079 --> 00:41:23.909

You're going to be multiple
years that you're going to.

NOTE Confidence: 0.8836316

00:41:25.020 --> 00:41:28.080

You'll have the
consequences of this.

NOTE Confidence: 0.8934136

00:41:33.520 --> 00:41:37.444

Do you know what we're looking
at in future years? I mean,

NOTE Confidence: 0.91634214

00:41:37.444 --> 00:41:39.068

realistically? Do we know it?

NOTE Confidence: 0.8820846

00:41:42.940 --> 00:41:46.810

I won't even like if you asked
me last year. Do we know that I

NOTE Confidence: 0.8820846

00:41:46.810 --> 00:41:48.616

know was going to be next year?

NOTE Confidence: 0.8573375

00:41:50.050 --> 00:41:52.066

And it said that's
impossible to know that.

NOTE Confidence: 0.85781854

00:41:54.000 --> 00:41:57.172

Again, going back to what Lynn
said it, it's what is what the

NOTE Confidence: 0.85781854

00:41:57.172 --> 00:42:00.100

governor says and and what he
gives us. I mean, every year

NOTE Confidence: 0.85781854

00:42:00.100 --> 00:42:02.540

we watched watched the budget
being released and try to

NOTE Confidence: 0.85781854

00:42:02.540 --> 00:42:05.224

figure out how much aid to
schools are going to get.

NOTE Confidence: 0.82732177

00:42:06.800 --> 00:42:08.897

Like Amy, you're on
the board for the GA.

NOTE Confidence: 0.7050834

00:42:10.100 --> 00:42:12.220

Yeah, spirit you remember?

NOTE Confidence: 0.7893584

00:42:17.990 --> 00:42:20.520

You're at the mercy here at
the mercy of the governor

NOTE Confidence: 0.7893584

00:42:20.520 --> 00:42:21.670

when it comes to this.

NOTE Confidence: 0.8991273

00:42:45.130 --> 00:42:48.237

What is it look like for a
school to run and not be

NOTE Confidence: 0.8991273

00:42:48.237 --> 00:42:49.671

at the mercy of the state?

NOTE Confidence: 0.7907173

00:42:51.120 --> 00:42:54.490

Private wealthy school
districts.

NOTE Confidence: 0.8115628

00:42:55.500 --> 00:42:57.265

A private tuition paying school

NOTE Confidence: 0.788909

00:42:57.265 --> 00:43:02.082

Amy. That that would not be at
the mercy of the state, a CBA.

NOTE Confidence: 0.76954293

00:43:06.680 --> 00:43:10.100

Have a good like Mark said, it's
60% of our budget state.

NOTE Confidence: 0.8408601

00:43:11.860 --> 00:43:15.281

And then, Conversely, you look
at like vestal there, they get

NOTE Confidence: 0.8408601

00:43:15.281 --> 00:43:17.147

30% of their revenue comes from

NOTE Confidence: 0.9009483

00:43:17.147 --> 00:43:21.208

state aid. So what would the percentage be once you cancel

NOTE Confidence: 0.9009483

00:43:21.208 --> 00:43:23.624

out all the requirements? All the ridiculous requirements

NOTE Confidence: 0.9009483

00:43:23.624 --> 00:43:26.644

imposed by the state, then what does it look like?

NOTE Confidence: 0.8003247

00:43:30.990 --> 00:43:33.870

All the unfunded mandates mean correct.

NOTE Confidence: 0.24239439

00:43:36.510 --> 00:43:37.130

Oh

NOTE Confidence: 0.6840598

00:43:39.810 --> 00:43:40.959

correct, but couldn't.

NOTE Confidence: 0.88415545

00:43:47.040 --> 00:43:49.840

We're gonna have to get
extremely creative and

NOTE Confidence: 0.88415545

00:43:49.840 --> 00:43:52.990

seriously think outside the
box, or I can't even.

NOTE Confidence: 0.85322434

00:43:55.690 --> 00:43:58.638

District another district. A few
years ago actually tried to go

NOTE Confidence: 0.85322434

00:43:58.638 --> 00:44:01.586

down the road of a charter
school and convert their public

NOTE Confidence: 0.85322434

00:44:01.586 --> 00:44:04.534

school to a charter school.

Because of that type of thing,

NOTE Confidence: 0.85322434

00:44:04.534 --> 00:44:08.554

state wouldn't let him do it. I

want to say it was one of the

NOTE Confidence: 0.85322434

00:44:08.554 --> 00:44:12.306

first years I was on the board.

They were trying to do it and.

NOTE Confidence: 0.83348536

00:44:12.970 --> 00:44:16.662

The state the state will let us

pursue that Ave it would just

NOTE Confidence: 0.9219249

00:44:16.662 --> 00:44:20.577

never happen. Not that I

think we should do that, but

NOTE Confidence: 0.9219249

00:44:20.577 --> 00:44:21.789

it's just. It's impossible.

NOTE Confidence: 0.79670167

00:44:23.420 --> 00:44:25.706

Yet they tie our hands

by cutting our funding.

NOTE Confidence: 0.8705386

00:44:27.340 --> 00:44:27.700

Yep.

NOTE Confidence: 0.733212

00:44:34.140 --> 00:44:36.228

George, we had an increase of.

NOTE Confidence: 0.8459491

00:44:37.930 --> 00:44:41.890

Families home schooling. This
year since covid started, we

NOTE Confidence: 0.8459491

00:44:41.890 --> 00:44:46.290

have somewhere very I would say
significant increase because we

NOTE Confidence: 0.8459491

00:44:46.290 --> 00:44:51.130

have the families that were
about 7030 remote hybrid. So we

NOTE Confidence: 0.8459491

00:44:51.130 --> 00:44:56.850

we small percentage maybe 10 to
1210 to 15 more have gone home

NOTE Confidence: 0.8459491

00:44:56.850 --> 00:45:01.690

schooling but again we have over
1400 kids in the district.

NOTE Confidence: 0.8102971

00:45:04.820 --> 00:45:09.632

Joe, you said 7030 remote hybrid
you meant 70? Hybrid 30 remote

NOTE Confidence: 0.8102971

00:45:09.632 --> 00:45:11.236

yeah yeah I'm sorry.

NOTE Confidence: 0.87035346

00:45:12.790 --> 00:45:15.622

Long day of looking at this,
that's OK. I just wanted to

NOTE Confidence: 0.87035346

00:45:15.622 --> 00:45:17.038

clarify for those listening
at home.

NOTE Confidence: 0.8407897

00:45:21.260 --> 00:45:24.835

Been a long weekend. It's been a
long week. It's been every since

NOTE Confidence: 0.8407897

00:45:24.835 --> 00:45:28.685

this came out and he actually
took it, which I think a lot of

NOTE Confidence: 0.8407897

00:45:28.685 --> 00:45:31.985

people thought he was bluffing
at. I don't know. Mark, I think

NOTE Confidence: 0.8407897

00:45:31.985 --> 00:45:35.010

you and I thought he was
bluffing right? He actually took

NOTE Confidence: 0.8920783

00:45:35.010 --> 00:45:38.544

it. He took the first
first 88,000 from us.

NOTE Confidence: 0.8879674

00:45:56.600 --> 00:45:57.938

Any other discussion?

NOTE Confidence: 0.83147514

00:45:58.910 --> 00:46:02.141

We're just going in circles
right now. We're not

NOTE Confidence: 0.83147514

00:46:02.141 --> 00:46:05.013

progressing because there's
no answers name, I mean.

NOTE Confidence: 0.7864752

00:46:06.750 --> 00:46:09.414

Parsley, right? We're sitting
here looking for answers now.

NOTE Confidence: 0.7864752

00:46:09.414 --> 00:46:12.078

The answer is that we get 20%
back, right?

NOTE Confidence: 0.90909576

00:46:16.490 --> 00:46:17.978

There's nothing more for us to

NOTE Confidence: 0.9051872

00:46:17.978 --> 00:46:19.770

do tonight. This is.

NOTE Confidence: 0.8464611

00:46:20.950 --> 00:46:24.591

And like I said, when the
meeting, sorry this was an

NOTE Confidence: 0.8464611

00:46:24.591 --> 00:46:27.901
informational night to the
board, to the community of where

NOTE Confidence: 0.8464611

00:46:27.901 --> 00:46:31.211
we stand, what we're doing,
where we are absolutely so.

NOTE Confidence: 0.8661708

00:46:31.800 --> 00:46:35.910
You know to wrap it up I I think
we continue to go hybrid. We

NOTE Confidence: 0.8661708

00:46:35.910 --> 00:46:37.280
start two weeks from today.

NOTE Confidence: 0.828888

00:46:38.000 --> 00:46:41.290

Ango hybrid an we revisit
this in the September board

NOTE Confidence: 0.828888

00:46:41.290 --> 00:46:44.580

meeting to see if anything
is changed. I don't know

NOTE Confidence: 0.828888

00:46:44.580 --> 00:46:46.225

any other course to pursue.

NOTE Confidence: 0.9164121

00:47:16.350 --> 00:47:19.398

OK, so our next meeting is

NOTE Confidence: 0.81897914

00:47:19.398 --> 00:47:22.570

scheduled for. September.

NOTE Confidence: 0.85191774

00:47:23.910 --> 00:47:24.540

Right?

NOTE Confidence: 0.8516202

00:47:25.570 --> 00:47:28.170

Hey look at my calendar. I
believe it September 10th.

NOTE Confidence: 0.8744424

00:47:29.480 --> 00:47:31.080

September 10th at 5:30.

NOTE Confidence: 0.79968685

00:47:35.700 --> 00:47:39.384

Hopefully no more. By then it's
it's only 10 more days, right?

NOTE Confidence: 0.8594908

00:47:42.050 --> 00:47:45.566

We have another meeting after
that to to to see what's going

NOTE Confidence: 0.91732955

00:47:45.566 --> 00:47:49.888

on. Would it be wise to push it
out a week or

NOTE Confidence: 0.86446506

00:47:51.590 --> 00:47:52.280

because we are?

NOTE Confidence: 0.8909943

00:47:54.560 --> 00:47:57.046

Are we going to have anything
to work with by then?

NOTE Confidence: 0.8783852

00:47:58.070 --> 00:48:01.112

I was going to say I, I think
we should probably push it

NOTE Confidence: 0.8783852

00:48:01.112 --> 00:48:02.282

out to maybe the 24th.

NOTE Confidence: 0.826527

00:48:03.680 --> 00:48:07.016

I mean, I don't see us having
anything extra by September 10th

NOTE Confidence: 0.826527

00:48:07.016 --> 00:48:09.796

and we don't have tonight.

Alright Anne, I'm OK with.

NOTE Confidence: 0.8969458

00:48:12.150 --> 00:48:15.786

My suggestion, if what do you
guys think about the 24th? I

NOTE Confidence: 0.8969458

00:48:15.786 --> 00:48:19.422

just want to make sure we have
tools in our Arsenal. Otherwise

NOTE Confidence: 0.8969458

00:48:19.422 --> 00:48:20.634

why are we meeting?

NOTE Confidence: 0.8627195

00:48:22.360 --> 00:48:25.055

Yeah, I don't wanna meeting
where we have no answers again

NOTE Confidence: 0.8627195

00:48:25.055 --> 00:48:27.750

and really need to make a
decision on the 10th still.

NOTE Confidence: 0.79519975

00:48:30.110 --> 00:48:32.827

Or you can make the decision on
the 10th school starts on the

NOTE Confidence: 0.79519975

00:48:32.827 --> 00:48:34.290

14th right. Let me pull my cast.

NOTE Confidence: 0.748918

00:48:35.160 --> 00:48:39.192

Exactly, that's why I think we
should wait to the 24th. OK

NOTE Confidence: 0.748918

00:48:39.192 --> 00:48:40.200

sparrows, Mary Lynn.

NOTE Confidence: 0.8192979

00:48:40.930 --> 00:48:44.700

Do you agree to the 24th? Yes.

Yes. Mary, what do you think?

NOTE Confidence: 0.8991073

00:48:46.150 --> 00:48:48.730

Yes OK alright.

NOTE Confidence: 0.9368837

00:48:50.340 --> 00:48:52.450

So we are going to.

NOTE Confidence: 0.8888165

00:48:53.050 --> 00:48:56.040

Take our September 10th
meeting and move it to the

NOTE Confidence: 0.8888165

00:48:56.040 --> 00:48:58.731

24th and God willing. We will
have some information.

NOTE Confidence: 0.80548745

00:49:00.740 --> 00:49:02.966

So OK, is there anything else?

NOTE Confidence: 0.72943693

00:49:07.220 --> 00:49:12.610

OK, motion to adjourn the
meeting. I have a motion, please

NOTE Confidence: 0.72943693

00:49:12.610 --> 00:49:14.570

ocean, thank you, Mike.

NOTE Confidence: 0.63824064

00:49:16.480 --> 00:49:19.060

Thank you Spyros discussion.

NOTE Confidence: 0.6144867

00:49:21.340 --> 00:49:28.890

Roll call Amy O'Brien Sparrows
Tomatoes Mary Collins. I like

NOTE Confidence: 0.6144867

00:49:28.890 --> 00:49:31.910

Barbara High in Lockwood.

NOTE Confidence: 0.77701086

00:49:33.710 --> 00:49:35.780

Meeting is adjourned.

Goodnight everyone.
