# Adding/Dropping Courses

## Adding Courses

- Students will be permitted to make changes to their course schedules, provided that room exists in the section and in the appropriate corresponding slot in their schedule. **No additions will be permitted after the first 12 days of classes.**
- **Note: Due to COVID-19 social distancing guidelines this school year, core classes are balanced and changes will not be made to schedules unless a student is missing a course required for graduation. Electives may be added if seating is available or you are replacing a study hall.**

## Dropping Courses

- If a student drops a course before **12-days**, the student, teacher, counselor, parent and administrator must sign a course drop form.
- A student may not drop a course after the completion of the first **12-days** of class. A procedure for dropping a course which involves the student, parent, counselor, teacher and an administrator must be followed before the request can be approved.
- If there is a disagreement among parties involved, a conference must be held with the Superintendent, who will make the final decision.
- If the Superintendent approves to drop a course, the student's mark will appear on the report card or permanent record, noted withdraw.
