

In accordance with new regulations issued by the New York State Office of the Attorney General, we are providing written notice to the public of the following:

1. Pesticides may be used at school facilities or on school grounds throughout the year;
2. The school is required to maintain a list of staff and parents who wish to receive 48 hours advance written notice of pesticide applications. To keep our records current, a new letter is required annually;
3. Instructions on how to register to receive such notice and inquiries for more specific information should be directed to John Silvanic, building and grounds supervisor, at 648-7545.

Please contact Mr. Silvanic if you want advance notification of pesticide use or if you have any questions regarding this notice.
